You will however also get marketing material in the process. Payment Options To make sure no customers are excluded, Burger King accept a variety of different payment methods - perhaps the easiest being cash in the restaurant and for home delivery. In the latter case this is called Cash On Delivery (COD) and simply involves giving the delivery driver the cash. They will then mark the transaction as complete. You can also easily pay online using their secure gateway. All Indian issued Credit, Debit and Cash Cards are accepted, and you can also use funds directly from your bank account by choosing the Net Banking option. Common cards accepted include Visa, Visa Debit, Mastercard, Maestro, and American Express. If you wish to redeem any Burger King Coupons you can easily do so by entering the code in to the designated box while adding items to your cart. If the code is entered correctly you will see a confirmation message, and your order and/or total cost will be updated accordingly. Note, you can only use one coupon per order, but they can sometimes be combined with non-coupon offers to make even deeper savings! Placing An Online Order If you wish to buy a meal from Burger King and have it delivered to your home, you must either call the restaurant or make the purchase online. The latter is a very simple process. Simply go to [burgerkingindia.in](#) and then click the order online link. You will then be prompted to select your city and locale from a drop down menu. If your area is listed you will be taken to relevant menu. Then all you have to do is browse through and add items you want to your cart. On the right side of the screen with your order summary you will see the coupon code box to enter any Burger King offers that come with a code. When you have chosen your order click Checkout and you will then need to enter your full address. The final step is payment. Delivery Once you have entered your address you will be informed of the approximate delivery time, however most orders will arrive within 1 hour and the packaging will keep your meal warm in the meantime so it's still nice to eat. The cost of Burger King delivery is Rs. 29, though sometimes there may be Burger King coupons to get delivery for free. Unfortunately if you cannot find your city or locale from the drop down box on the site, you will not be able to have your food delivered and will have to visit a local restaurant instead. Customers will be provided with a contact number and tracking details, so you know where your food is and can contact them if there are any issue.
